Jesús Márquez Delgado

Full-Stack Web Developer · Drupal, PHP & React

Computer engineer with 4+ years of experience in enterprise web development with Drupal 10/11, PHP and React. At 1xINTERNET I build custom modules, API integrations and React front ends for multilingual corporate sites of international brands such as Circor, Maggi and Thomy, working in English with a distributed team. Acquia Certified Drupal 10 Developer.

EXPERIENCE

Web Developer — 1xINTERNET March 2022 – Present
Drupal agency building enterprise websites for international brands

- Drupal 10/11 and PHP back end: custom modules, services, plugins and hooks for the multilingual sites of Circor, Maggi and Thomy.
- Migrations with the Migrate API and Drupal upgrades with Composer.
- API integrations (JSON:API, REST) and front-end work with React, Twig and Tailwind CSS, decoupled or inside Drupal themes.
- Site search with Search API and Apache Solr; accessibility (WCAG) and technical SEO with Core Web Vitals.
- PHPUnit, PHPStan and PHPCS in CI pipelines, and code review of merge requests in GitLab.
- Scrum and Kanban with Jira: turning client requests into estimated technical tasks, in English with a distributed team.
- AI-assisted development with Claude Code and MCP servers.
